

# COST CONTAINMENT DEMANDS INSIGHT

## WE LOOK AT DATA FROM EVERY PERSPECTIVE TO DELIVER THE BEST CARE AND OUTCOMES TO OUR CLIENTS

The numbers tell a story—and the analysis provides the insight. We analyze appropriateness of care utilizing a diagnosis-based methodology to monitor changes, pinpoint gaps, and identify trends early in the injury lifecycle. The result is some of the most innovative programs in the industry and consistent industry-leading outcomes.

PMSI's **Home Health Care** program takes a holistic approach to care delivery through a proprietary process that applies evidence-based medical guidelines to ensure appropriate high-quality care. The focus is on providing continuous communication, increasing network penetration utilizing only the best home health agencies, and streamlining administrative processes. These activities are tracked through insightful reports to claims professionals, which support effective collaboration and decision making. Our approach has delivered meaningful cost reduction for even the most complex workers' compensation claims.

To learn more about Home Health Care and all of our innovative solutions for containing the cost of workers' compensation, go to [www.pmsionline.com/homehealth](http://www.pmsionline.com/homehealth) or call **877.ASK.PMSI**.
