PMSI SETTLEMENT SOLUTIONSSM LAUNCHES INNOVATIVE DRUG VALUE TOOL

*Industry-First Calculator Estimates Lifetime Pharmacy Costs and Drug Utilization
Review Savings for Medicare Set-Aside Allocations*

Tampa, Florida (November 12, 2009) – PMSI Settlement Solutions, a leading provider of settlement services for the liability and workers' compensation markets, has launched its web-based Drug VALUE Tool. An industry first, the Drug VALUE Tool employs data from PMSI's *Annual Drug Trends Report* and uses a proprietary algorithm to calculate projected savings for a claim to determine if a comprehensive Drug VALUE Review (DVR) should be performed for a Medicare Set-Aside (MSA) allocation.

"One of the keys to effectively reducing overall settlement costs is conducting a DVR that is backed by scientific evidence," says Kent Takemoto, MD, President of PMSI Settlement Solutions. "We are excited to offer our Drug VALUE Tool as a trusted and efficient way to identify cases which will have the greatest cost savings benefit from a comprehensive DVR to accurately allocate for the pharmacy cost component of the MSA."

Harnessing PMSI's extensive proprietary database of over 8 million pharmacy claims to project utilization trends, the Drug VALUE Tool instantly calculates average costs of an injured worker's current drug treatment regimen projected over their life expectancy, using the most up-to-date drug cost data.

The Drug VALUE Tool can be accessed online at www.pmsisettlement.com/dur/ or downloaded to a user's desktop to estimate the pharmacy portion of an allocation and identify opportunities to lower drug allocations, which in turn will reduce overall settlement costs. The Drug VALUE Tool, which is provided to users at no cost, can also be used to estimate future pharmacy claims reserves.

The Drug VALUE Tool will also be released as an Apple iPhone and iPod Touch application. "We are bringing best-in-class solutions that are easily accessible to the constituents we serve," comments Mark Livings, Chief Information Officer for PMSI. "By providing multiple access points to the Drug VALUE tool, we plan to drive broader adoption of this innovative cost estimation tool."

About PMSI Settlement Solutions:

PMSI Settlement Solutions is recognized as the leader in Medicare Set-Aside allocations. PMSI Settlement Solutions offers a comprehensive portfolio of services for

workers' compensation and liability/no-fault auto claims that are focused on settling claims in the most timely, cost-effective manner and in compliance with all government requirements. PMSI Settlement Solutions is a division of PMSI, one of the nation's largest providers of specialty managed care services and products for workers' compensation and liability markets. To learn more about PMSI Settlement Solutions, our services and web-enabled, integrated capabilities visit www.pmsisettlement.com or call 888.MSA.PMSI.

About PMSI:

PMSI is one of the nation's largest full-service providers of clinically-driven services for Pharmacy, Settlement Solutions, and Medical Services and Equipment, and is devoted exclusively to the workers' compensation and liability markets. For over 33 years, PMSI has served as the trusted resource for thousands of insurance payors, state workers' compensation funds, employers, and third-party administrators. Today, PMSI continues its leadership position by managing millions of pharmacy, medical services and equipment, and settlement transactions each year.
