Leading Workers' Compensation Carrier Confirms PMSI as Solution Provider of Choice

Tampa, Florida (December 15, 2009) – PMSI, one of the nation's largest and most experienced providers of specialty products and services for the workers' compensation market, announced today that Kentucky Employers' Mutual Insurance (KEMI) has decided to renew its pharmacy services (retail and mail order) and medical services and equipment contract for three additional years.

"PMSI's outstanding client-focused service and the knowledge they bring to our team were part of our decision to renew," commented Roger Fries, President and CEO of KEMI. "Additionally, the innovative solution offerings they bring to market help us address workers' compensation in a more efficient and cost effective manner."

Through the agreement, PMSI will continue to help KEMI achieve their cost containment goals through pharmacy program savings, clinical pharmacy oversight and strategies to drive in-network penetration for medical services and equipment.

"We are excited to help KEMI with continued opportunities for savings through mail order utilization and out-of-network strategies for pharmacy, programs to increase vendor compliance for medical services and equipment, and to enhance KEMI's eligibility interface through VitalPoint, PMSI's web-based claims management tool," stated Eileen Auen, Chairman and CEO of PMSI.
